Board Meeting
October 15, 2020**

This meeting was a Webex meeting. Meeting was called to order at 10:07 a.m. managed by Jeanne Lintz and Barbara Franke.

Treasurer's report was given and accepted. Included in the report was an update on the Golf Tournament which did very well. The final total on the event was \$14,437.

Skip Wingo of the treasury team is moving out of town and will be giving up his position. We will be looking to refill his position. Will get an official retirement note from Skip.

Pete has completed the 990.

-Grant Update – A fair amount of Hardware has been purchased.

-A donation was made to the center by the family of Madge Jenkins. Looking for a suggestion as how to use the donation.

-Budget monies available to do some classes.

-Virtual classes exist and will continue to exist even after the center is open. However many people are resisting virtual.

-Efforts are being made to bring up to date areas in the center by installing plexiglass dividers and notes on the floors for social distancing.

-Temperatures will be taken at the door upon entry with a few health-related questions to be asked.

-A very limited number of people will be allowed per room and things like card tables will not be allowed. Pickleball will be allowed by limiting the number of people to play inside and more cleaning will be done.

-Eating together will be a meal to take home.

-It is what it is at this point.
